Hand-cut mosaic for pools and walls

Custom mosaics in glass and marble, designed for your space and made in our own studio since 1998.

mosaiclegs.com · (323) 389-5347 · Serving North America and the Caribbean

The studio

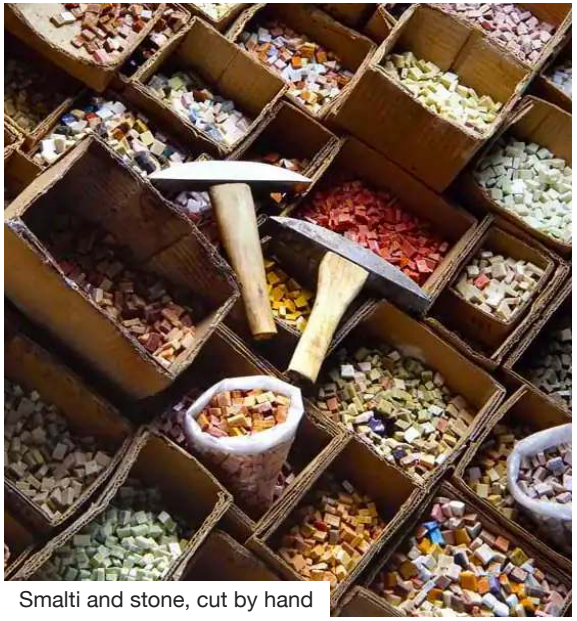

Mosaiclegs designs and makes custom mosaic for pools, spas, walls and floors. Our work has been specified for private homes, hotels, restaurants and San Diego International Airport.

Every piece is made in our own studio by mosaicists trained in the traditional craft: smalti, glass and marble cut by hand, piece by piece, alongside grid-set blends and fields.

We have been doing this since 1998, for clients across North America and the Caribbean.

Drawing a pool mosaic full size in the studio

Smalti and stone, cut by hand

Hippocampus medallions on the bench

How we work

Four steps from the first drawing to the crate.

1 Design

We draw the design to the measured size of your space and revise it until it is right.

2 Color

Colors are chosen with you from over 1,000 in our charts, then approved before cutting.

3 Fabrication

The mosaic is cut and assembled in our studio. You see photos as it comes together.

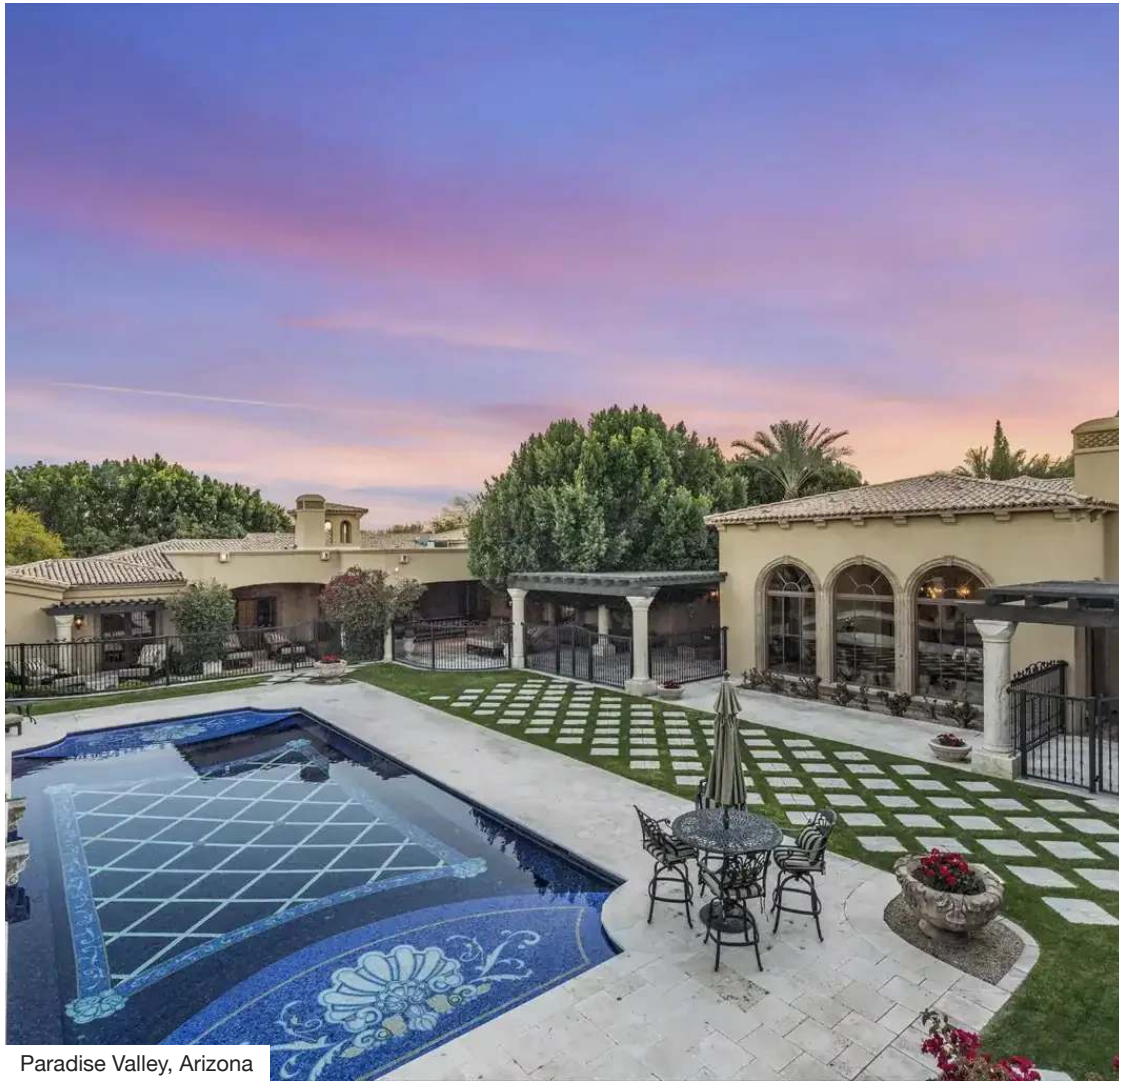

4 Delivery

It ships in numbered sections, keyed to a setting drawing for your tile setter.

Glass ships paper-faced; marble ships mesh-backed.

Pools

All-tile pools, spas, waterlines and floor designs, in hand-cut glass or marble, drawn for the shape of your pool.

Paradise Valley, Arizona

St. Thomas, U.S. Virgin Islands

California

Locations are where each mosaic is installed.

Pools

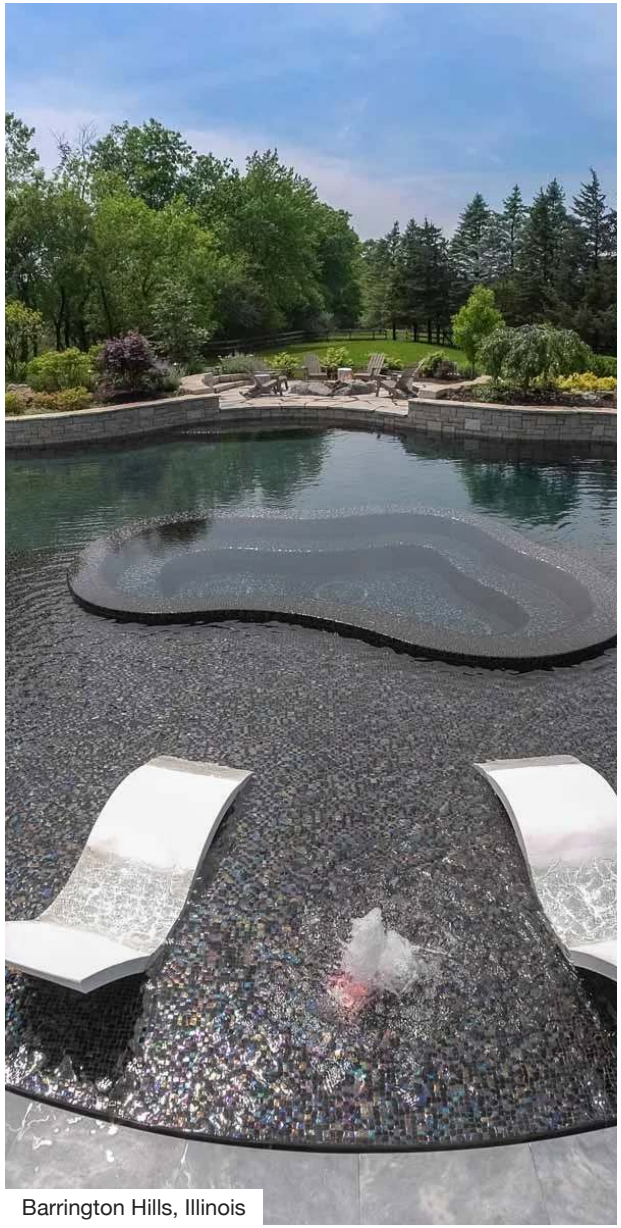

Virginia

Palm Springs, California

Lake Austin, Texas

Barrington Hills, Illinois

Locations are where each mosaic is installed.

Murals and art

Murals for walls, kitchens and public spaces, in hand-cut smalti for fine detail and color.

San Diego International Airport

A Walk in the Orchard · kitchen backsplash

Bird sanctuary mural

Malibu coastline · kitchen backsplash

Afternoon Rest, after Van Gogh

Marble

Hand-cut stone for floor medallions, mosaic rugs, backsplashes and murals. Marble brings natural color variation and veining; each piece is cut to the approved drawing and delivered mesh-backed in numbered sections.

Queen’s Megaron · Backsplash after the Palace of Knossos

The Wave · Marble backsplash

Louis XV marble rug · Entry floor

Los Baños, California · Honed and tumbled marble pool

Borders and medallions

Waterline borders that run the full length of the pool and medallions in any size, from a family crest to a compass rose.

San Diego, California · Greek key waterline

Tucson, Arizona · Scroll waterline

Newport Coast, California

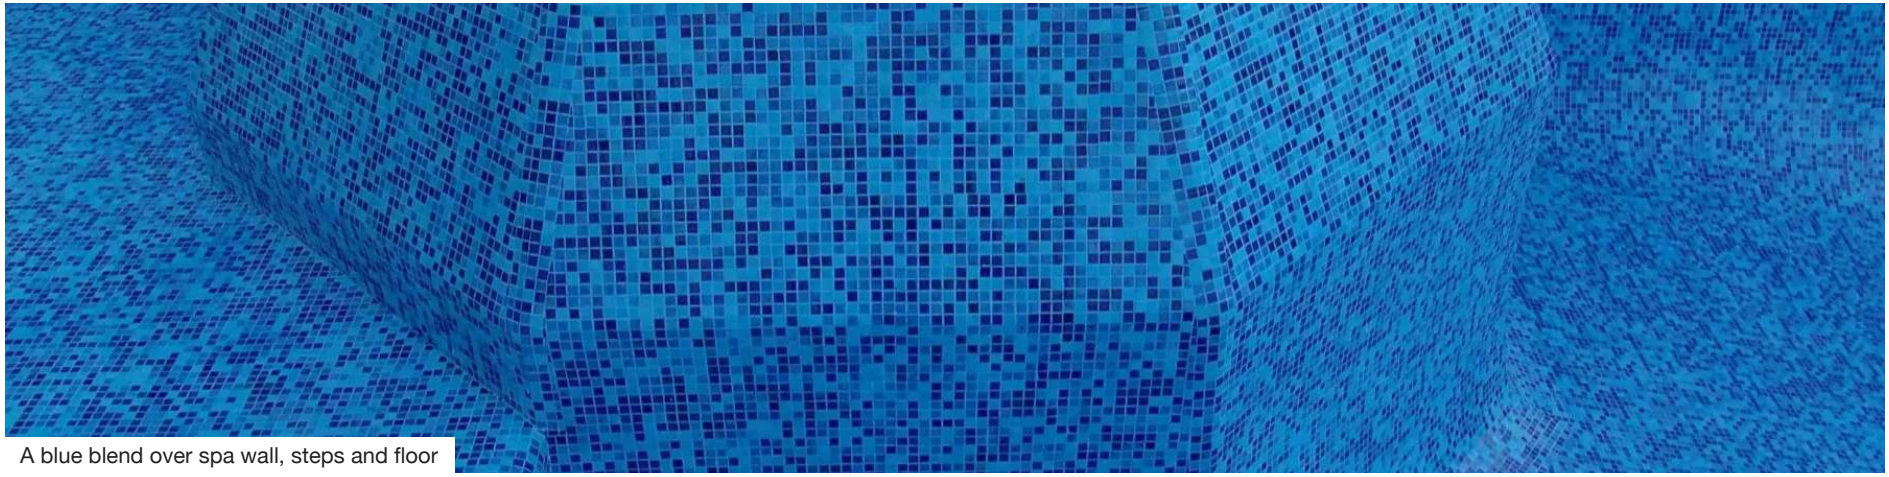

Pool floor medallion

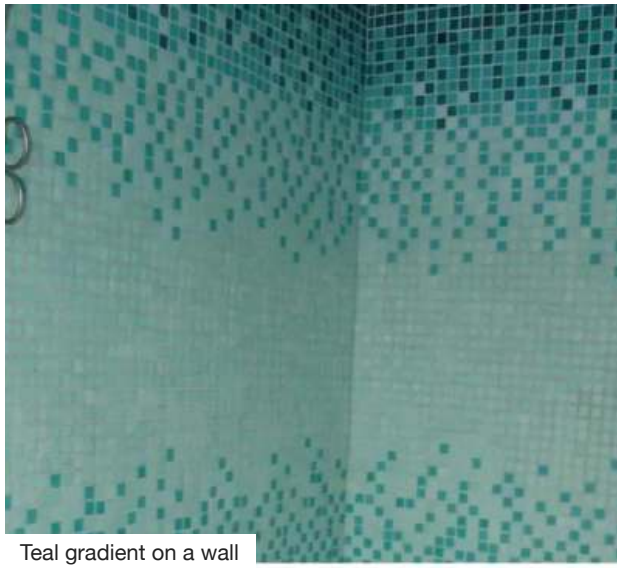

Medallion drawing, Greek key and laurel

Blends and gradients

Mixed glass colors that read as one tone, or grade from one color to another across a pool or wall. Try our blend builder at mosaiclegs.com.

A blue blend over spa wall, steps and floor

Teal gradient on a wall

Iridescent blend, close up

Dark blend on pool steps

Materials and color

Smalti

Thick poured glass, cut by hand. Rich color and an uneven surface for fine art and detail.

Smalto

Our vitreous glass mosaic, with a natural sheen. Best for pools, fields and blends.

Marble and stone

Honed, polished or tumbled. For floors, entries, backsplashes and medallions.

Starting a project

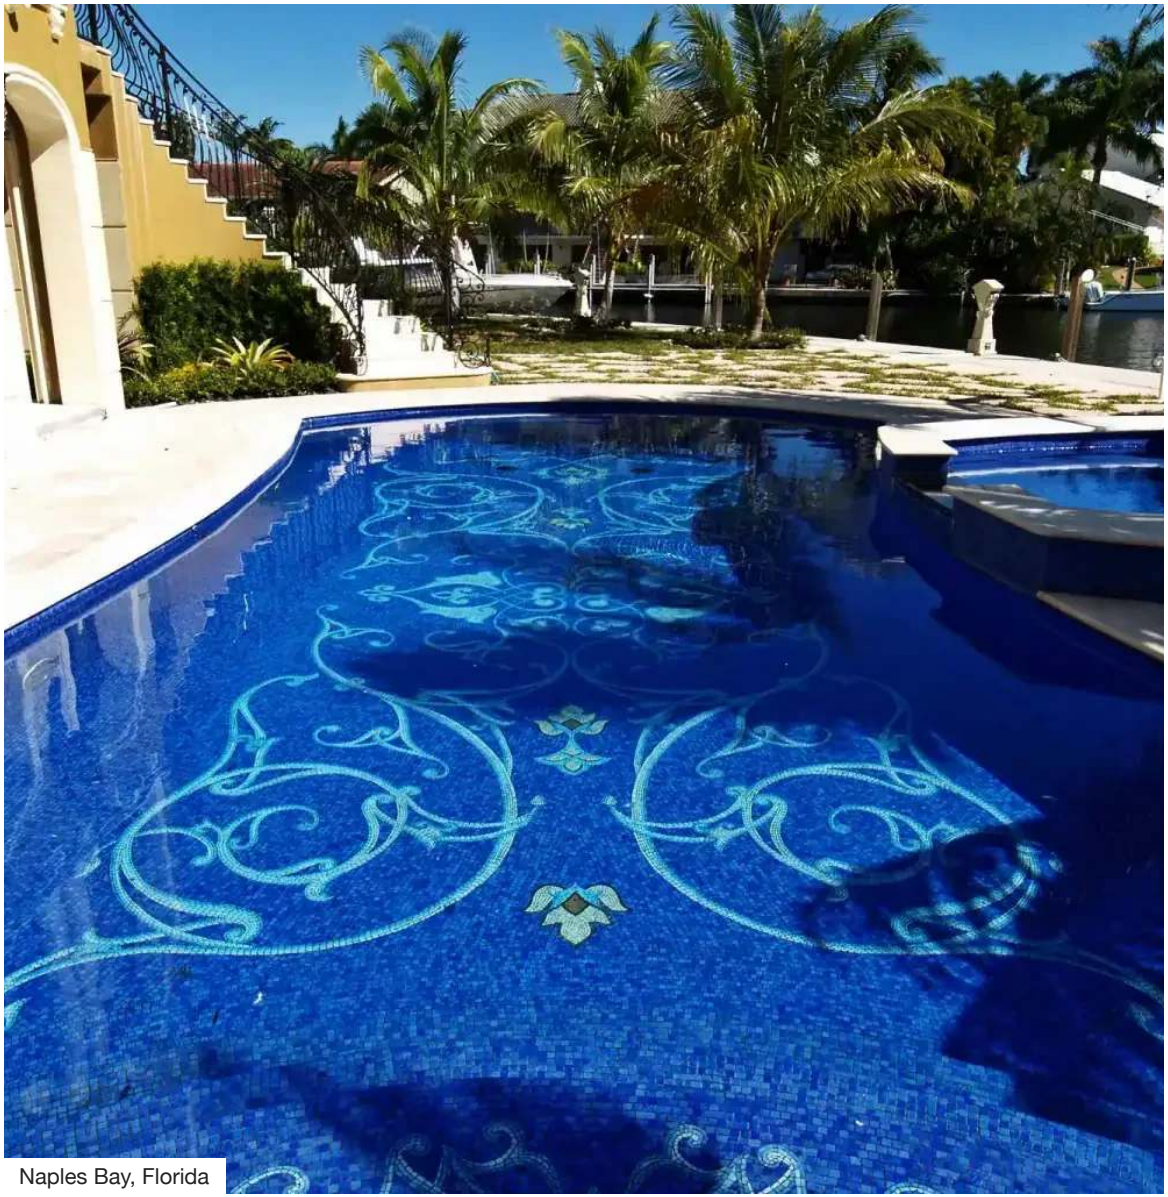

Send us:

- Photos of the space as it is now
- Dimensions, or plans if you have them
- What you have in mind: an image, a sketch or an idea
- Where the mosaic goes: a feature, a border or waterline, or the whole pool

From there we draw a design for your space and prepare your quote.
